

11-Free Trial

This system has a 15 day free trial. There are two parts to our free trial.

Part 1, is you making your recordings, and Part 2, is you listening to, and downloading, your recordings. The good part about you using the free trial, is that, not only will you experience using the service, but you will automatically learn, how to use the service. The free trial will require that you provide us, with a minimum amount of your personal information. We need this information to actually make the recording, and to give you the privacy, of controlling, who, can listen to, and download your recordings. That information is (1) the telephone number, of the device, that you will use for the trial, (2) one of your email addresses, and (3) your selection of a password. Your device can be any telephone. That includes mobile phones, and land lines.

-How you make a recording.

There are two Types of recordings.

Type "R" causes your phone to act like a tape recorder. It begins to record, when you activate this Type of recording Type "D" causes your phone to make a recorded call. When you activate this Type of recording, you will hear a prompt, that says: "Hello and Welcome", "Please enter the 10 digit number, and close with the # sign". Then you hear a short tone. When you hear the short tone, enter the 10 digit number that you want to call, followed by the # sign. When the caller picks up the phone, you will be on a recorded call. For information, regarding options for identifying the resultant recorded wav files, see Information Item 12 "Making Recordings".

To make a Type "R" Call dial: 937 732-6737 or "YesRecords"

To make a Type "D" Call dial: 732 673-2255 or "RecordCall"

The Free Trial, will last for 15 days. During the Free Trial time, you will not have any expense. We will not ask for a credit card, or for any other information. After the Free Trial is over, you will be asked to Register for the service.

Part 2 - How you listen to, and download, your recordings. The recordings can be listened to, and downloaded by going to our web site, www.RecordCall.com. Instructions for using that site are in Information Item 21, "Listen To and Download Recordings".
